PRESIDENT’S MESSAGE (Jan. 25th)

Greetings Fellow Lions:

Rain, freezing rain, sleet, light snow, heavy snow, blizzard. We’ve had just about everything this winter. Hopefully, the next couple of months will be more sunshine, warmer temperatures, and no precipitation.

Today we welcome Tara Lantz from Porter’s Camera as our speaker. It is also her birthday! Let’s give her a warm Lions welcome (but refrain from subjecting her to our version of “Happy Birthday”).

Continue to keep the people of Haiti in your thoughts and prayers.

We Serve ……… Dan Conrad

TODAY’S MEETING (Jan. 25th)

Tara Lantz, Porter’s Camera, will speak to the club about tips and techniques, preserving digital images and today’s technology.

Feb. 15th … TBA

BIRTHDAYS  ANNIVERSARIES

Cliff Satre – Jan. 30th  David & Jan Deaver – Jan. 31st

ANNOUNCEMENTS

None

LAST MEETING (Jan. 18th)

Hy-Vee is on the leading edge of healthcare, and has created in store programming to promote health and well being in the community. Today Dean Schillinger, a registered dietician from Hy-Vee Cedar Falls spoke to the club about the NuVal program.

Dan Conrad & Dean Schillinger Developed by a recognized team of nutrition and medical experts from leading health organizations and universities, the NuVal System is a food-scoring system that helps consumers see – at a glance – the nutritional value of the food they buy.

The NuVal System scores food on a scale of 1 to 100. The higher the NuVal score, the higher the nutrition. It’s that simple. Because the NuVal System applies the same nutritional criteria to all foods, you can now quickly and easily compare the nutritional value of foods not only within a category (vegetables) but also across categories (vegetables and veggie burgers).

NuVal Scores will be displayed right at the point of purchase – on shelf tags, aisle signage and other communications. At a glance, you’ll be able to see and compare the nutritional value of products as part of your regular shopping routine.

Store managers and associates trained in the NuVal System will be available to answer questions and help you use NuVal Scores while you are shopping. There also will be a variety of informational materials about the NuVal System available in your local store.

Eventually, almost every product in our supermarket will have a NuVal Score. Scores will roll out by category (produce, protein, salty snacks, etc.), so if you don’t see NuVal Scores in your favorite aisle yet, know that they are coming soon.
